DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8/10/07 has been entered.

Response to Applicant's Arguments / Amendments

This Office Action is responsive to the amendment filed on 8/10/07. Claims 1-5, 7-10, 12-15, and 17-21 are pending. Claims 6, 11, and 16 have been cancelled. Claims 1, 7-10, 17-19, and 21 have been amended. In light of Applicant's amendments to the claims, the arguments submitted 8/10/07 have been fully considered and are persuasive, therefore the former claim objections and 35 USC 102 rejections have been overcome.

Allowable Subject Matter

The following is a statement of reasons for the indication of allowable subject matter:

Claims 1-5, 7-10, 12-15, and 17-21 requires a gasket for a washing machine comprising, inter alia, a leakage preventing part and a ring protrusion part such that it protrudes towards a center of the third opening between one and another end of the leakage preventing part to block a gap between the second and third openings, the ring protrusion having a front end defining a front end opening, and a rear end defining a rear end opening, with the rear end being closer to the drum than the front end, and a diameter of the front end of the protrusion being greater than a diameter of the rear end opening of the protrusion.

Upon further search and consideration, the closest prior art fails to read on Applicant's claimed invention and there appears to be no other prior art that teaches or fairly suggests the instant claims, therefore, claims 1-5, 7-10, 12-15, and 17-21 hereby allowed.

Conclusion
